## Fiber Service Site Plan

**In the box below, draw your property and mark the approximate location for any underground facilities.**

Items to mark may include:

- |   |  |                                    |   |
|---|--|------------------------------------|---|
| <input type="checkbox"/> Septic and drain field | <input type="checkbox"/> Pet fences        | <input type="checkbox"/> Roadways  | <input type="checkbox"/> Private electric lines |
| <input type="checkbox"/> Propane                | <input type="checkbox"/> Sprinkler systems | <input type="checkbox"/> Buildings | <input type="checkbox"/> Landscaping lighting   |
| <input type="checkbox"/> Satellite services     | <input type="checkbox"/> Property lines    | <input type="checkbox"/> Driveway  | <input type="checkbox"/> Other private lines    |
| <input type="checkbox"/> Electric meter         |  |                                    |   |

Please be sure to mark your preferred fiber route on the drawing using a dashed line (---).

**\*NOTE: The site plan below, and all field marked with an asterisk (\*), must be filled out and returned before Highline can proceed with installation. Failure to do so will result in a delay of service.**

Highline will have all public utilities such as electric, natural gas, phone, and cable marked for you. **Once Highline marks your property, please clearly mark your private underground facilities with the flags that will be provided by a site planner.** A planner will visit your site to determine the best route of your fiber line and determine if additional permits or easements are needed/required.

**\*Please complete this form and upload by clicking on the uploader button and submitting this form through our website.**
